### Five Pounds

#### Rare Piece of Australian History

**1913 £5 R. 35 (First Issue – Non Mosaic Collins/Allen signature**

**Contemporary Forgery – circa 1913/1914**

**History/Background** - An early World War I anti-conscription related organization, calling itself "Industrial Workers of the World" (IWW), was creating a lot of political angst with its strong stand on conscription and other social issues.

It is alleged that some of its members were involved in a private syndicate producing and releasing forged £5 Commonwealth banknotes throughout the country.

At the time, it was alleged that the IWW organization was involved in a gigantic plot to disrupt Australia's finances and dampen the war effort by distributing over 25,000 pounds worth of forged five pound notes.

Following the discovery of the forgeries, a mosaic of fives was added to the reverse of the £5 note in 1914. The horizontal red/yellow bands on the first design were also replaced by a vertical phasing of the purple/yellow/purple colours.

**An important and historic contemporary note forgery.**

## **Highly Recommended Banknotes Book**

### **Australian History 1901 to 2001 As Seen Through Banknotes**

The history of the evolution of Australian currency notes since Federation is a fascinating one. With the foreword written by Ian Macfarlane, Governor of the Reserve Bank of Australia from 1996-2006, this volume brings an international perspective and significant new information to the History of Australian Currency. The official note issue begins with the superscribed series printed by the Government before World War I, and ends with today's polymer notes. This limited edition leather-bound book with slipcase has previously unpublished banknote images and information sourced from the Reserve Bank of Australia Archives, leading collectors, dealers, historians, museums, and the Dauer Collection. With the collaboration of the Reserve Bank, this 352 page full-colour tome extensively covers Pre-Federation 1851 to 1900, Federation notes from 1901 to 2001, military issues of both World Wars and Vietnam, and 20th century shinplasters. **This presentation book makes the ideal personal or corporate gift.**
